

Certificate of Warranty

General Information

Apollo Sunguard Systems, Inc., warrants all structures sold, will conform in kind and quality to the published specifications, and will be free of defects in workmanship and material. As a further indication of our quality, Apollo Sunguard Systems, Inc. provides a framework and fabric warranty.

Cover Removal

In the event of severe storm warnings, the cover should be removed with predicted winds of 75 mph. The unit is designed for 120 mph winds (3 second burst); however, in most storms there is a strong possibility of microbursts exceeding design specifications; therefore, cover removal is required.

Framework 20 Year Warranty

Apollo Sunguard Systems, Inc. provides a ***20 year warranty on all steel framework*** against all structural damage due to corrosion, deterioration, or workmanship. Units are not designed for snow loads unless specifically engineered for snow loads. Please remove the cover from your unit in the winter. Owner is responsible for routine maintenance to preserve the finish and welded joints. This might consist of spot painting any points of corrosion if, in the unlikely event any should occur (regardless of cause); and, to keep connecting hardware properly secured. ***Failure to provide routine maintenance will void this warranty.*** Warranty constitutes repair or replacement of any defective parts. ***This warranty does not include any cosmetic issues, vandalism, incidental damage or Acts of God.***

Fabric 10 Year Warranty

Apollo Sunguard Systems, Inc. provides a ***10 year warranty for all polyethylene covers*** against deterioration, rot or faulty workmanship and seam failure. ***Owner is responsible for routine maintenance of cover***, which includes maintaining proper cable tension and cleaning cover annually with a light detergent and water to maintain color vibrancy. ***This warranty does not include any cosmetic issues, vandalism, incidental damage, or Acts of God.***

Installation

Failure to install units as per factory specifications voids all warranties.
